

# Research, Development and Innovation Policy

The role of RDI in implementing The Ministry of  
Agriculture and Forestry's Strategy for 2030

Adopted 15 April 2019

## MMM Vision for 2030

Responsible bioeconomy and  
circular economy form  
foundation for Finland's  
competitiveness and wellbeing

### MMM Mission

To be facilitator of renewable and  
sustainable food and natural  
resource economies and a  
producer of reliable information  
resources.

## *Mission for RDI*

We produce and utilise knowledge,  
competence and innovation  
proactively and in a way that  
supports and serves

- decision-making and policy preparation
- competitive business and economic activities and
- increased wellbeing.

# Tools to implement the RDI mission:

- Performance guidance of research institutes within the administrative branch of MMM
- Uncommitted research and development funding
- Influencing national research and innovation policy processes together with the cooperation partners
- Active participation in international research cooperation and preparation of EU and Nordic work programmes together with research funders and other stakeholders

The background of the slide is a photograph of a calm lake reflecting a dense forest of green trees under a clear blue sky. In the top right corner, there is a circular logo with a green and blue gradient, featuring a white stylized figure in the center.

# The main themes for MMM's RDI:

1. **Responsible, renewable and competitive food production system.**
2. **Renewable and sustainable natural resource economy that increases wellbeing and replaces the use of non-renewable raw materials and energy sources.**
3. **Successful rural areas, multilocality and strong networks that strenghten the society.**
4. **Reliable, widely available spatial, real estate and apartment data enabling new business activities and secure ownership.**
